MONTHLY PROGRAM:

**A Special Fieldtrip replacing General Meeting
Friday, November 4, 2011, 6:30 p.m.
Western Foundation of Vertebrate Zoology**

The Western Foundation of Vertebrate Zoology, (WFVZ), sometimes referred to as "The Camarillo Bird Museum," hosts a natural history collection specializing in eggs and nests of birds in addition to 56,000 bird study skins from around the world and a good number of mounted specimens. The Western Foundation is a research and education institution dedicated to bird conservation. SFVAS participants have the opportunity to come early (at 6:30 pm) to be treated to a brief private introduction to the collection and a chance to view some of the wonders contained therein. At 7:30 pm the evening's program will begin. The WFVZ's Executive Director, Dr. Linnea Hall, will present a seminar on the Foundation's long-term research project in Guatemala. Guatemala has been little-studied ornithologically, and was especially neglected during the country's 30 plus years of civil war, which only ended in the late 1990s. As a consequence, Rene Corado, the WFVZ's Collection's Manager, started working in the country in 2001 with two primary objectives: to document and describe breeding by resident Guatemalan birds, and to describe the distribution of species throughout the country. Starting in 2005, Dr. Hall expanded the project to include monitoring birds in central Guatemala, and to describe breeding and population changes in an area that is ravaged by severe environmental degradation. Results from both the first and second phases of the project will be presented and discussed with lots of birds and egg pictures to ensure that everyone comes away knowing something about the birds of this small country. Dr. Hall has been studying habitat use and population dynamics of wildlife, especially bird, since 1989. She has directed and conducted fieldwork on more than 50 original studies of

wildlife of the western U.S. and now Guatemala, and has mentored more than 20 graduate students on their own projects, both as Assistant Professor of Avian Ecology at CSU Sacramento (1996-2000), and as Director of the WFVZ. She co-edited two books on birds (on condors and cowbirds), and is the sole or co-author of over 35 journal articles on wildlife, as well as numerous reports. She also recently co-authored the book, *Egg and Nest* with Rene Corado. She has been working at the WFVZ since 2002, teaching bird ID and other ornithology classes, conducting research, coordinating staff and volunteers, and fundraising to run the WFVZ. If you have never been to the Western Foundation, you are in for a treat. First time visitors are always amazed and delighted! For information on carpools to the Western Foundation for this program, please contact: Heather Medvitz at Heather.Medvitz@sfvaudubon.org (818)222-4430. Directions to the Western Foundation: From the San Fernando Valley, take Hwy. 101 to Pleasant Valley/Santa Rosa Road exit, turn left at the end of the off-ramp, going back over the freeway. Follow Pleasant Valley west for 2 miles to where it crosses Lewis Road (at a signal). Move to the right lane and continue heading west on Pleasant Valley to the second street on the right, Calle San Pablo. (If you cross the railroad tracks, you have gone too far.) Turn right on Calle San Pablo. The foundation is the fifth building on the left (439 Calle San Pablo).

San Fernando Valley Audubon's monthly General Meetings are held on the fourth Thursday of the month at 7:00 p.m. (except July and August). We meet at the Encino Community Center, 4935 Balboa Blvd. Encino. November's meeting is cancelled due to the Thanksgiving Holiday. Instead we have scheduled a Field Trip, November 4, to the Western Foundation of Vertebrate Zoology. See above.

General Membership Meeting

Thursday, December 22, 2011, 7:00 p.m.

Papua New Guinea: Birds and People with Chuck and Lillian Almdale

Papua New Guinea is a land of huge diversity, in terrain, birds and people. Almost half of its 750 avian species are endemic. Of its 830 indigenous languages, half have fewer than 1,000 speakers. In 2008, the Almdales visited six locales in three weeks. Their multi-media presentation features many endemic birds, especially the birds-of-paradise as well as the fascinating people of New Guinea, including the Huli Wigmen of the central highlands and the Yu-koin cannibal-headhunters of Konmei village on the Karawiri River in the east Sepik lowlands. Come and remind yourself why you really want to go there.

Chuck & Lillian Almdale have been active in the Audubon Society for over 25 years. When not birding internationally, they lead local field trips, maintain records of Malibu Lagoon birds, census Snowy Plovers, comment on local and national bird blogs and chat lines, and have been on the board of Santa Monica Bay Audubon Society for over 20 years. They both are retired accountants. (Photos: Huli Wigmen and a Blyth's Hornbill) ♣

Audubon-at-Home Mailbox by Alan Pollack

I recently had a caller ask about nesting boxes for birds. The following information comes courtesy of The National Wildlife Federation:

Many species of birds require a natural cavity in a tree or branch where they can build their nest, lay eggs, and raise their young. Nesting boxes (or birdhouses) replicate these shelters for birds and create a safe and easy place for birds to live. Here are some helpful tips to guide you through the process of buying or building, installing, and maintaining your own nesting box. You can purchase nesting boxes at home improvement or birding specialty stores, through catalogs or via the Internet. (or build them yourself, Alan says)

- Install your birdhouse before the nesting season begins. Mid to late winter (late February) is best for most geographic areas.
- Each species of bird has different nesting box requirements. Visit the Cornell Lab of Ornithology's Birdhouse Network at <http://birds.cornell.edu/birdhouse/bhbasics/refrchart.html> to get nest box plans for a variety of species (or Google "nest box dimensions", Alan says)
- Boxes built of untreated wood are best.
- Your box should not have a perch. Perches are unnecessary and allow invaders such as house sparrows access to the box. House sparrows are known to sit on a nesting box perch and peck at other birds using the nesting box.
- You can score the inside walls of the box with a knife or nail, which will help baby birds in reaching the exit hole when they are ready to leave the nest.
- The box should have drainage holes in the bottom, ventilation holes toward the top (but not in the roof, or water will leak in), and a hinged side to allow easy access for cleaning and monitoring the birdhouse.
- Hang your box from a pole with a predator guard. Nailing boxes in trees allows predator's easier access and can harm the tree. There are different kinds of predator guards designed for different predators. For more information, visit www.birds.cornell.edu/birdhouse/resources/construct.
- Don't use insecticides and other pesticides on the nesting box. Birds rely on insects to feed their young and chemicals are harmful to the birds.
- You should monitor the nesting box on a regular basis. During the nesting season, beginning in March, examine the box every two weeks to see if it is being used. You can remove any nests that are no longer being used and check for any nuisance species. Clean the nesting box in September or October. The box should remain clean until the following spring.
- Try to identify invasive exotic birds, which may out-compete and even kill native birds. Remove their nests from your nesting box if you discover them. For more about undesirable birds visit www.birds.cornell.edu/AllAboutBirds/attracting/feeding/pests_birds.

Please e-mail Alan Pollack, our Audubon-at-Home Chair, with any questions you have with regard to creating a wildlife-friendly garden that can be used for publication. Alan offers FREE consultation/landscape design to help you make your yard wildlife friendly. He also gives a FREE, PowerPoint slide show/lecture to community groups, high school, and college classes on attracting wildlife to your garden and sustainable gardening practices. He can be contacted at (818) 340-2347 or at alan.pollack@sfaudubon.org. ♣

New Fish and Game Warden for Sepulveda Basin Wildlife Reserve

by Terri L. Chapman, SFVAS Member

The San Fernando Valley now has a Fish and Game Warden designated solely for our area. His name is Warden Kory Collins.

On Saturday morning, October 15th, I went to photograph birds at the Sepulveda Basin Wildlife Reserve and as usual, I saw illegal fishing in progress. The three men were literally waist deep in the lake, using glass beer bottles as fishing poles! I immediately called the Cal Tip Hotline for the Department of Fish and Game AND the Public Safety Officers for Sepulveda. Two Public Safety Officers were the first to arrive and caught the fishermen and confiscated the fish.

Illegal fishing and alcohol drinking are common problems in the Sepulveda Basin Wildlife reserve and many bird lovers have grown weary thinking there is nothing that can be done about it, but I am here to say differently. My phone calls have been responded to and now that Warden Kory Collins is overseeing the Sepulveda Basin Wildlife Reserve he has asked me to spread the word to please call him and report ALL illegal activity. He wants to help make the Sepulveda Basin Wildlife Reserve a safer place for all of us and for the wildlife. So I want to encourage all the San Fernando Valley Audubon members to please program their cell phones with the following numbers and carry their cell phones with them on their bird walks and call each time they see illegal activity in progress:

Cal Tip Hotline for Department of Fish and Game: 1(888)334-2258—a recording will come on and give you a menu.

PRESS ZERO for the operator and the operator will ask for the “violation in progress” and your location and transfer you to the applicable Fish and Game division department. State that Warden Kory Collins is in charge of the area and should be notified of the problem.

Public Safety Officers for Sepulveda: 1(213)978-4670—the operator will answer and you state the problem.

We can make a difference for the wildlife of the San Fernando Valley by getting involved when we see illegal activity. So, thank you in advance for using your cell phones to help the birds we all love to watch. ♡

Second Saturday Bird Walks For Families and Beginners 9:00—11:00 a.m.

NOW through March Sepulveda Basin Wildlife Reserve (FREE)

The San Fernando Valley Audubon Society will lead FREE bird walks for families and beginners on the second Saturday of the month, October 2011—March 2012. (Saturdays: Nov. 12, Dec. 10, Jan. 14, Feb. 11, and Mar. 10.) Stroll through the lovely Sepulveda Basin Wildlife Reserve, enjoying its trails and lake. Many birds come here in winter. Learn about the birds and why they come here.

These Walks are for

- People trying their first bird walk
- Beginning birdwatchers
- Families with school-age children.

Time and Meeting Place: The Wildlife Area entrance and amphitheater are in the southeast part of Woodley Park. Meet at the amphitheater at 9:00 a.m.

Directions: Turn north from Burbank Blvd. onto Woodley Ave., which is ½ mile west of the San Diego Freeway (I-405). Travel about ½ mile to the second possible right turn and turn east (right) at the sign for the Wildlife Reserve. Bear right at the fork in the road and go east ½ mile to the Wildlife Area parking. Walk south past the monumental rocks and restroom building to the amphitheater.

Equipment and Clothing: Wear sturdy shoes and layered clothing. A cap or hat with a brim is suggested. We have binoculars to loan or you can use your own.

More Information: Muriel Kotin at 310.457.5796 or Linda Jones at 818.831.6061. Reservations are not needed except for large groups. **Rain cancels.** Please visit our website www.sfvaudubon.org. ♡

Calendar of Events

Calendar of Events - November

Friday, November 4. SFVAS General Membership Meeting. 6:30 p.m. SPECIAL Field Trip to the Western Foundation of Vertebrate Zoology. Directions: From the San Fernando Valley, take Hwy. 101 to Pleasant Valley/Santa Rosa Road exit, turn left at the end of the off-ramp, going back over the freeway. Follow Pleasant Valley west for 2 miles to where it crosses Lewis Road (at a signal). Move to the right lane and continue heading west on Pleasant Valley to the second street on the right, Calle San Pablo. (If you cross the railroad tracks, you have gone too far.) Turn right on Calle San Pablo. The foundation is the fifth building on the left (439 Calle San Pablo). See page one for more information.

Saturday, November 5. Upper Las Virgenes Canyon Open Space Bird Walk. 8:00–11:00 a.m. Directions: Exit the Ventura Freeway (U.S. 101) at Las Virgenes Canyon Road and proceed north to the trailhead parking area at the end of the road. Please bring plenty of water and wear proper shoes. No toilets are available on site. Leader: Jim Hardesty (818) 346-6712, Jim.Hardesty@sfvaudubon.org.

Saturday, November 5. Castaic Lake Bird Walk. 8:00–10:00 a.m. Directions: Take closest freeway to I-5 North and exit at Parker Road. Turn right and proceed to stop sign (Castaic Road), proceed to next stop sign (Lake Hughes Road), proceed to next stop sign (Castaic Lake Drive) and turn right. Entrance to the park is on the right. Parking is in Lot 4, so make a right turn after the kiosk, then an immediate left turn into the lot, parking to the left. Leader: Roger McClure. For information, contact the staff.

Sunday, November 6. Sepulveda Basin Bird Walk. 8:00 a.m. Directions: Exit the San Diego Freeway (I-405) on Burbank Blvd. Go west about one-half mile to Woodley Avenue and turn right (north). Travel about one-half mile to the second possible right turn (at sign for the Water Reclamation Plant and Japanese Garden). Turn right and go east about one-half mile to Wildlife Area parking at the end of the road. Leader: Kris Ohlenkamp. Contact him at (818) 986-7785 or kris.ohlenkamp@sfvaudubon.org.

Saturday, November 12. Beginners and Family Bird Walk. 9:00–11:00 a.m. Come on out for a fun bird walk at Sepulveda Basin! These popular walks, designed for beginning birders and school-age children, are resuming for the current cool season. Directions: Exit the San Diego Freeway (I-405) on Burbank Blvd. Go west about one-half mile to Woodley Avenue and turn right (north). Travel about one-half mile to the second possible right turn (at sign for the Water Reclamation Plant and Japanese Garden). Turn right and go east about one-half mile to Wildlife Area parking at the end of the road. Meet across the road from the parking lot at the low buildings. Leader(s): Muriel Kotin, (310) 457-

5796 or Linda Jones, (818) 831-6061. Reservations are not needed except for large groups. Rain cancels. Please visit our website www.sfvaudubon.org.

Saturday, November 12. Placerita Canyon Nature Center Docents' Bird Walk. 8:00 a.m. NOTE: New start time. Directions: Take the 405 or 5 Freeway north to the 14 Freeway. Exit the 14 at Placerita Canyon. Turn right at the end of the off ramp and continue about 1.5 miles to the park entrance. Turn right and park at the Nature Center. Various leaders. For more information, call the Nature Center at (661) 259-7721.

Sunday, November 13. Descanso Gardens Bird Walk. 8:00 a.m. Meet at the first wide place after entering the gardens. Admission is FREE for early birders. Located at 1418 Descanso Drive, La Cañada. Leader: Karen Johnson or Nancy Herron Knode. For more information, contact Dottie Ecker, (818) 790-0659.

Tuesday, November 15. O'Melveny Weekday Walk at O'Melveny Park, Granada Hills. 9:00 a.m. Directions: Take the 118/Ronald Reagan Freeway and exit at Balboa Blvd. Turn north, driving two miles to Sesnon, turn left going west 0.6 miles, turn right at park entrance. Meet in the parking lot. RAIN CANCELS. Contact Carolyn Oppenheimer at, (818) 885-7493, with any questions (before 7 p.m.) or carolyn.oppenheimer@sfvaudubon.org.

Saturday, November 19. Monthly Field Trip: Ventura Harbor and Water Treatment Ponds. 8:00 a.m. Directions: From the San Fernando Valley, take the 101 Freeway to the city of Ventura, exit Seaward Avenue, turn left over the freeway, then immediately left (south) on Harbor Blvd. to Spinnaker Drive and proceed to the end. Look for birders in the last parking lot on the left. Leader: Richard Barth (310) 276-0342.

Saturday, November 19. Santa Monica Mts. Conservancy Bird Walk at Towsley Canyon. 8:00–10:00 a.m. Directions: Go north on I-5 through Santa Clarita, exit Calgrove and turn west (left) under the freeway and then left again on the Old Road. Watch for the sign, "Ed Davis Park at Towsley Canyon." Turn right and park in the back lot. Meet at the kiosk. Leader: Roger McClure. For further information, call (661) 252-6187.

Sunday, November 20. Malibu Creek State Park Bird Walk. 8:00 a.m. Meet at the second (lower) day-use parking lot. Entrance to the park is on the west side of Las Virgenes Road, just south of Mulholland Hwy. Entrance fee is \$12 per car. Leader(s): Muriel Kotin, muriel.kotin@sfvaudubon.org, (310) 457-5796, and/or Art Langton, (818) 887-0973.

Thursday, November 24. NO SFVAS General Membership Meeting. Happy Thanksgiving!

Sunday, November 27. Descanso Gardens Bird Walk. 8:00 a.m. See November 13 for details.

Monday, November 28. SFVAS Board Meeting. 7:00 p.m. Balboa Mission Town Hall, 16916 San Fernando Mission Blvd., at Balboa (southeast corner) in Granada Hills.

Calendar—December

Saturday, December 3. Upper Las Virgenes Canyon Open Space Bird Walk. 8:00–11:00 a.m. See November 5 for details.

Saturday, December 3. Castaic Lake Bird Walk. 8:00–10:00 a.m. See November 5 for details.

Sunday, December 4. Sepulveda Basin Bird Walk. 8:00

a.m. See November 6 for details.

Tuesday, December 6. Antelope Valley Audubon Committee will hold its Quarterly Meeting and 4th Annual Holiday Potluck. 6:00 p.m. The Prime Desert Woodland Preserve in the Elyze Clifford Interpretive Center, at 43201 35th Street W., in Lancaster. Bring a food item to share and join in the festivities. Contact Bob or Bonnie Weatherman (661) 269-2051 for more information. Program posted on www.avaudubon.com.

Future Field Trips: (Details later)

No Monthly Field Trip in December due to Christmas Count

January 21. Upper Newport Bay and San Joaquin Wildlife Sanctuary

February 18. Private Game Preserve †

Monthly Fieldtrip Report

 by Richard Barth

On September 17 we visited Orange County to bird Huntington Central Park and Bolsa Chica Ecological Reserve.

Huntington Central produced a previously-reported Lucy's Warbler (!) plus other interesting fare like Olive-sided Flycatcher, Lazuli Bunting, Phainopepla, Western Wood-Pewee, Pacific-slope Flycatcher, Hutton's Vireo, Warbling Vireo, Western Tanager, Western Bluebird, Black-headed Grosbeak and Hooded Oriole. In addition to the Lucy's, our warbler list featured Black-throated Gray, Townsend's, Yellow, Wilson's, Orange-crowned and Common Yellowthroat. Trip participants Steve and Becky Turley nabbed another special previously-reported warbler, a Blackpoll, after the rest of us had left for Bolsa Chica.

The southeast end of Bolsa Chica, scoped from below Harriett Wieder Park, gave us two Stilt Sandpipers and two Pectorals that had been found in recent days----Stilt Sand is an especially scarce transient through coastal southern California. Lesser Yellowlegs, Black-bellied Plover, Semipalmated Plover and Wilson's Phalarope were also tallied here. Raptors in this area were Northern Harrier, White-tailed Kite, Cooper's Hawk and American Kestrel. In the main part of the reserve our highlight bird was a Reddish Egret (one of several returning from past years) while Red Knot, Long-billed Curlew, Willet, Marbled Godwit, Ruddy Turnstone, Forster's Tern and Belding's Savannah Sparrow also sparked interest. †

2012 San Diego Bird Festival March 1—4, 2012

The San Diego Audubon Society invites you to San Diego for the 16th annual San Diego Bird Festival, being held at the Marina Village Conference Center. This year's banquet keynote speaker is Kenn Kaufman. He is a field editor for Audubon magazine and a contributor to every major birding magazine and author of Kingbird Highway, Flights Against the Sunset, and Lives of North American Birds. To register go to:

<http://sandiegoaudubon.org/index.php/events/bird-festival>

LEAFSNAP

Columbia University, the University of Maryland, and the Smithsonian Institution have pooled their expertise to create the world's first plant identification mobile app using visual search. Leafsnap allows users to identify tree species simply by taking a photograph of the tree's leaves. Use this app to learn about plants in your own backyard and also contribute to the Leafsnap database. As people use Leafsnap, the free mobile app automatically shares images and tree locations with scientists who can then monitor tree population throughout the U.S.

Source: Smithsonian Focus

Contributed by Linda Jones. (Can electronic bird ID be far behind?) To download the Leafsnap app to your iPhone or iPad, go to itunes.apple.com or <http://apps.usa.gov/leafsnap/>. †

Now is the Best Time to Trim your Bushes and Trees...

by Scott & Bonnie at Wild Wings

When trimming trees and bushes, it is best to avoid Southern California's "high" nesting season and do your trimming between late September and February. Most of our species nest between March 1 and August 31, but some birds, especially hummingbirds, hawks and owls can be found nesting at any time of year. Carefully inspect any area before you begin the process of foliage removal. Also, certain species such as hawks, owls, crows, and ravens often re-use nests. If a large nest made of twigs is encountered, even if unoccupied, assume that it belongs to one of these birds and do not remove it.

Please click on the links below to download a PDF file of Los Angeles Audubon's Guide to Bird-Friendly Tree and Shrub Trimming and Removal. By following their guidelines, great numbers of birds may be spared the destruction of their nests and ensure that future generations will be able to enjoy the bounty of birds that call Los Angeles County home!

[Tree Trimming Guidelines - English \(PDF\)](#)

[Tree Trimming Guidelines - Spanish \(PDF\)](#)

...and Clean out your Nesting Boxes

It's time to remove all old nesting material and other matter from your birdhouses. Once all material is removed, if possible wash the house thoroughly with a weak bleach solution (one part chlorine bleach to nine parts warm water). Rinse the house well in clean water for several minutes to remove any traces of bleach. Dry the house thoroughly in full sun for at least several hours. Now is also a good time to inspect the house for loose hinges, protruding nails or screws, splinters and other hazards that can injure adult or hatchling birds.

When done, replace the box to its previous spot and you are ready for next spring's nesting activity! ♪

PHAINOPEPLA Photo of the Month

Please submit your photos to Lynn.Maddox@sfvaudubon.org. Only one picture per photographer per month please! Ideally, the picture will be taken within our area and the information will include the location and the date it was taken, what camera and lens was used, a short account of how the picture was taken, and profile of the photographer. Good shooting! Thanks, Lynn. ♪
